Founded more than two decades ago, Open Lending partners with financial institutions to help expand access to automotive financing through its proprietary risk decisioning technology and insurance-backed credit solutions. The acquisition expands ANV's specialty platform by adding a differentiated lending enablement business that complements its insurance expertise and broader growth strategy.

"We are pleased to welcome Open Lending to ANV," said Adam Karkowsky, Chairman and Chief Executive Officer of ANV. "This acquisition advances our strategy of building market-leading, specialty underwriting businesses and further strengthens our insurance-backed credit strategy. Open Lending's capabilities complement our specialty platform, and we look forward to supporting its continued growth as part of ANV."

"We're proud of the business we've built and the trust our customers have placed in us," said Jessica Buss, Chief Executive Officer of Open Lending. "We look forward to building on that foundation as part of ANV and continuing to help financial institutions manage risk and grow their lending portfolios."

Together, ANV and Open Lending will build on their complementary strengths to help financial institutions expand access to credit while creating long-term value for customers, partners, and employees.
