

## **Open Lending Reports Third Quarter 2020 Financial Results**

November 10, 2020

#### The Company Announces that OEM #2 Came Back Online in October as Planned

AUSTIN, Texas, Nov. 10, 2020 (GLOBE NEWSWIRE) -- Open Lending Corporation (NASDAQ: LPRO) (the "Company" or "Open Lending"), a leading provider of lending enablement and risk analytics solutions to financial institutions, today reported financial results for its third guarter of 2020.

"We are very encouraged by our third quarter results, which include an 8% increase in certified loans, a 35% increase in revenue and a 29% increase in Adjusted EBITDA compared to the third quarter of 2019," said John Flynn, Chairman and CEO Open Lending. "Our lending partners have proven resilient and continue to utilize our platform throughout the COVID-19 pandemic. We believe the low interest rate environment, the increased demand and value of used cars, and consumers moving out of cities and reluctant to use public modes of transportation are driving these positive trends. We are also thrilled that OEM#2 came back on to our platform in October as planned."

### Three Months Ended September 30, 2020 Highlights

- The Company facilitated 20,696 certified loans during the third quarter of 2020, compared to 19,087 certified loans in the third quarter of 2019
- Total revenue was \$29.8 million, compared to \$22.1 million in the third quarter of 2019
- Gross profit was \$27.3 million, compared to \$20.2 million in third quarter of 2019
- GAAP net loss of \$(71.1) million, compared to GAAP net income of \$14.7 million in third quarter 2019. The GAAP net loss was primarily attributable to \$(83.1) million in change in estimated fair value of contingent consideration shares awarded as part of the business combination with Nebula Acquisition Corporation ("Nebula") on June 10, 2020. Given the share price performance milestones for the contingent consideration have all been met as of August 2020, net income beginning in the fourth quarter of 2020 and beyond will not be burdened by any changes to the fair value of the contingent consideration shares
- Adjusted EBITDA was \$19.7 million, compared to \$15.3 million in the third quarter of 2019

Adjusted EBITDA is a non-GAAP financial measure. Reconciliations of this non-GAAP financial measure to its most directly comparable GAAP financial measure are provided in the financial tables included at the end of this press release. An explanation of this measure and how it is calculated is also included under the heading "Non-GAAP Financial Measures."

#### **Non-GAAP Financial Measures**

Included in this press release is financial information that has not been prepared in accordance with GAAP. The Company uses Adjusted EBITDA, a non-GAAP financial measure, internally in analyzing our financial results and believe it is useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance. The Company believes that the use of this non-GAAP financial measure provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial results with other companies in our industry, many of which present similar non-GAAP financial measures to investors.

Adjusted EBITDA is a non-GAAP financial measure used by management to evaluate its operating performance, generate future operating plans, and make strategic decisions, including those relating to operating expenses and the allocation of internal resources. Accordingly, the Company believes these measures provide useful information to investors and others in understanding and evaluating its operating results in the same manner as its management and board of directors. In addition, they provide useful measures for period-to-period comparisons of our business, as they remove the effect of certain non-cash items and certain variable charges. Adjusted EBITDA is defined as net income excluding interest expense, income taxes, depreciation and amortization expense, share-based compensation expense, change in fair value of contingent consideration and transaction bonuses as a result of the Business Combination. Adjusted EBITDA margin is defined as Adjusted EBITDA expressed as a percentage of total revenue.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of Adjusted EBITDA to its most directly comparable GAAP financial measure provided in the financial statement tables included below in this press release.
