QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

NEBULA ACQUISITION CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

333-222137

(Commission File Number)

82-3008583

(I.R.S. Employer
Identification Number)

**Four Embarcadero Center, Suite 2350
San Francisco, CA**

(Address of principal executive offices)

94111

(Zip Code)

Registrant's telephone number, including area code: **(513) 618-7161**

Not Applicable

(Former name or former address, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically, if any, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input checked="" type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>
Emerging growth company	<input checked="" type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$0.0001 per share	NEBU	The NASDAQ Stock Market LLC
Warrants to purchase one share of Common Stock	NEBU.W	The NASDAQ Stock Market LLC
Units, each consisting of one share of Common Stock and one third of one Warrant	NEBU.U	The NASDAQ Stock Market LLC

As of May 14, 2019, 27,500,000 shares of Class A common stock, par value \$0.0001 per share, and 6,875,000 shares of Class B common stock, par value \$0.0001 per share, were issued and outstanding, respectively.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1-DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Organization and General

Nebula Acquisition Corporation (the “Company”) was incorporated in Delaware on October 2, 2017. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the “Securities Act,” as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”).

At March 31, 2019, the Company had not commenced any operations. All activity for the period from October 2, 2017 (inception) through March 31, 2019 relates to the Company’s formation, the initial public offering (“Initial Public Offering”) described below, and since the closing of the Initial Public Offering, the search for a prospective initial Business Combination. The Company will not generate any operating revenues until after completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of investment income from the proceeds derived from the Initial Public Offering. The fiscal year of the Company is the twelve- month calendar period from January 1 through December 31.

Sponsor and Financing

The Company’s sponsor is Nebula Holdings, LLC, a Delaware limited liability company (the “Sponsor”). The registration statement for the Initial Public Offering was declared effective by the United States Securities and Exchange Commission (the “SEC”) on January 9, 2018. The Company consummated its Initial Public Offering of 27,500,000 Units, including the issuance of 2,500,000 Units as a result of the underwriters’ partial exercise of their over-allotment option at \$10.00 per Unit, generating gross proceeds of \$275 million and incurring offering costs of approximately \$15.7 million, inclusive of \$9.625 million in deferred underwriting commissions (Note 3).

Simultaneously with the closing of the Initial Public Offering, the Company consummated the private placement (“Private Placement”) of 5,000,000 warrants (the “Private Placement Warrants”), at a price of \$1.50 per Private Placement Warrant, with the Sponsor, generating gross proceeds of \$7.5 million (Note 4).

The Trust Account

Funds from the Initial Public Offering have been placed in a trust account (“Trust Account”) with American Stock Transfer and Trust Company. The proceeds held in the Trust Account may only be invested in U.S. government treasury bills with a maturity of one hundred eighty (180) days or less or in money market funds that meet certain conditions under Rule 2a-7 under the Investment Company Act of 1940, as amended (the “Investment Company Act”) and that invest only in direct U.S. government obligations. Funds will remain in the Trust Account until the earlier of (i) the consummation of the initial Business Combination or (ii) the distribution of the Trust Account proceeds as described below. The remaining proceeds outside the Trust Account may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company’s amended and restated certificate of incorporation provides that, other than the withdrawal of interest to pay franchise and income taxes (less up to \$500,000 of interest released to the Company for working capital purposes and \$100,000 of interest to pay dissolution expenses, if any), none of the funds held in the Trust Account will be released until the earlier of: (i) the completion of the initial Business Combination; (ii) the redemption of any shares of Class A common stock included in the Units (the “Public Shares”) sold in the Initial Public Offering that have been properly tendered in connection with a stockholder vote to amend the Company’s amended and restated certificate of incorporation to modify the substance or timing of its obligation to redeem 100% of such shares of Class A common stock if it does not complete the initial Business Combination within the Combination Period (defined below); and (iii) the redemption of 100% of the shares of Class A common stock included in the Units sold in the Initial Public Offering if the Company is unable to complete an initial Business Combination within the Combination Period (subject to the requirements of law). The proceeds deposited in the Trust Account could become subject to the claims of the Company’s creditors, if any, which could have priority over the claims of the Company’s public stockholders.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Initial Business Combination

The Company's management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering, although substantially all of the net proceeds of the Initial Public Offering are intended to be generally applied toward consummating an initial Business Combination. The initial Business Combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into the initial Business Combination. Furthermore, there is no assurance that the Company will be able to successfully effect an initial Business Combination.

The Company, after signing a definitive agreement for an initial Business Combination, will either (i) seek stockholder approval of the initial Business Combination at a meeting called for such purpose in connection with which stockholders may seek to redeem their shares, regardless of whether they vote for or against the initial Business Combination, for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income taxes and up to \$500,000 of interest which may be released to the Company for working capital purposes, or (ii) provide stockholders with the opportunity to sell their Public Shares to the Company by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount in cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest (which interest shall be net of taxes payable and up to \$500,000 for working capital amounts released to the Company). The decision as to whether the Company will seek stockholder approval of the initial Business Combination or will allow stockholders to sell their Public Shares in a tender offer will be made by the Company, solely in its discretion, and will be based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require the Company to seek stockholder approval, unless a vote is required by law or under NASDAQ rules. If the Company seeks stockholder approval, it will complete its initial Business Combination only if a majority of the outstanding shares of common stock voted are voted in favor of the initial Business Combination. However, in no event will the Company redeem its Public Shares in an amount that would cause its net tangible assets to be less than \$5,000,001 upon consummation of the initial Business Combination. In such case, the Company would not proceed with the redemption of its Public Shares and the related initial Business Combination, and instead may search for an alternate initial Business Combination.

If the Company holds a stockholder vote or there is a tender offer for shares in connection with an initial Business Combination, a public stockholder will have the right to redeem its shares for an amount in cash equal to its pro rata share of the aggregate amount then on deposit in the Trust Account as of two business days prior to the consummation of the initial Business Combination, including interest earned on the funds held in the trust account and not previously released to the Company to pay its franchise and income taxes (less up to \$500,000 of interest released to the Company for working capital purposes). As a result, such shares of Class A common stock have been recorded at redemption amount and classified as temporary equity upon the completion of the Initial Public Offering, in accordance with the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 480, "Distinguishing Liabilities from Equity."

Pursuant to the Company's amended and restated certificate of incorporation, if the Company is unable to complete the initial Business Combination within 24 months from the closing of the Initial Public Offering ("Combination Period"), the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than ten business days thereafter subject to lawfully available funds therefor, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income taxes (less up to \$500,000 of interest released to the Company for working capital purposes and \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. The Sponsor and the Company's officers and directors entered into a letter agreement with the Company, pursuant to which they agreed to waive their rights to liquidating distributions from the Trust Account with respect to any Founder Shares (as defined below) held by them if the Company fails to complete the initial Business Combination within the Combination Period. However, if the Sponsor or any of the Company's directors, officers or affiliate acquires shares of Class A common stock in or after the Initial Public Offering, they will be entitled to liquidating distributions from the Trust Account with respect to such shares if the Company fails to complete the initial Business Combination within the Combination Period.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

In the event of a liquidation, dissolution or winding up of the Company after an initial Business Combination, the Company's stockholders are entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. The Company's stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that the Company will provide its stockholders with the opportunity to redeem their Public Shares for cash equal to their pro rata share of the aggregate amount then on deposit in the Trust Account, upon the completion of the initial Business Combination, subject to the limitations described herein.

Going Concern Consideration

In connection with the Company's assessment of going concern considerations in accordance with Financial Accounting Standard Board's Accounting Standards Updated ("ASU") 2014-15, "Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern", management has determined that the mandatory liquidation and subsequent dissolution raises substantial doubt about the Company's ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should the Company be required to liquidate after January 12, 2020.

As of March 31, 2019, the Company had approximately \$953,000 in its operating bank account, approximately \$4.6 million of investment income available in the Trust Account to pay for franchise and income taxes (less up to \$500,000 of investment income released to the Company for working capital purposes and \$100,000 of investment income to pay dissolution expenses), and working capital of approximately \$565,000.

Through March 31, 2019, the Company's liquidity needs have been satisfied through receipt of a \$25,000 capital contribution from the Sponsor in exchange for the issuance of the Founder Shares (Note 5) to the Sponsor, approximately \$291,000 in loans from the Sponsor, the net proceeds from the consummation of the Private Placement not held in Trust, and proceeds from investment income released from Trust Account to pay for taxes. The Company repaid the loans from the Sponsor in full in February 2018.

NOTE 2-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") for interim financial information and pursuant to rules and regulations of the SEC. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP. In the opinion of management, all adjustments (consisting of normal accruals) considered for a fair presentation have been included. Operating results for the three months ended March 31, 2019 is not necessarily indicative of the results that may be expected through December 31, 2019.

The accompanying unaudited condensed financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Annual Report on Form 10-K for fiscal year 2018, which was filed by the Company with the SEC on February 15, 2019.

Emerging Growth Company

Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statement with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts and management believes the Company is not exposed to significant risks on such accounts.

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under the FASB ASC 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the condensed balance sheet.

Fair Value Measurements

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

Use of Estimates

The preparation of the financial statement in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement. Actual results could differ from those estimates.

Offering Costs

The Company complies with the requirements of the FASB ASC 340-10-S99-1 and SEC Staff Accounting Bulletin Topic 5A-Expenses of Offering." Offering costs consist of costs incurred in connection with formation and preparation for the Initial Public Offering. These costs, together with the underwriter discount, was charged to additional paid-in capital upon completion of the Initial Public Offering.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Class A Common Stock subject to possible redemption

As discussed in Note 1, all of the 27,500,000 common shares sold as part of a Unit in the Initial Public Offering contain a redemption feature which allows for the redemption of common shares under the Company's Liquidation or Tender Offer/Stockholder Approval provisions. In accordance with FASB ASC 480, redemption provisions not solely within the control of the Company require the security to be classified outside of permanent equity. Ordinary liquidation events, which involve the redemption and liquidation of all of the entity's equity instruments, are excluded from the provisions of FASB ASC 480. Although the Company did not specify a maximum redemption threshold, its charter provides that in no event will it redeem its Public Shares in an amount that would cause its net tangible assets (stockholders' equity) to be less than \$5,000,001.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of the security at the end of each reporting period. Increases or decreases in the carrying amount of redeemable common stock shall be affected by charges against additional paid-in capital. Accordingly, at March 31, 2019 and December 31, 2018, 26,558,362 and 26,452,491 of the 27,500,000 Public Shares were classified outside of permanent equity, respectively.

Net Income per Share

Net income per share is computed by dividing net income by the weighted-average number of common stock outstanding during the periods. The Company has not considered the effect of the warrants sold in the initial Public Offering (including the consummation of the over-allotment) and Private Placement to purchase an aggregate of 14,166,667 shares of the Company's Class A common stock in the calculation of diluted income per share, since their inclusion would be anti-dilutive under the treasury stock method.

The Company's condensed statements of operations include a presentation of income per share for common stock subject to redemption in a manner similar to the two-class method of income per share. Net income per share, basic and diluted for Class A common stock is calculated by dividing the interest income earned on the Trust Account, net of applicable taxes and funds available to be withdrawn from Trust for working capital purposes, by the weighted average number of Class A common stock outstanding for the period. Net income per share, basic and diluted for Class B common stock is calculated by dividing the net income, less income attributable to Public shares, by the weighted average number of Class B common stock outstanding for the period.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under FASB ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement's carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. There were no unrecognized tax benefits as of March 31, 2019 or December 31, 2018. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. No amounts were accrued for the payment of interest and penalties at March 31, 2019 or December 31, 2018. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

Recent Accounting Pronouncements

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have an effect on the Company's financial statements.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Note 3-Public Offering

On January 12, 2018, the Company sold 27,500,000 Units, including the issuance of 2,500,000 Units as a result of the underwriters' partial exercise of their over-allotment option, at a price of \$10.00 per Unit.

Each Unit consists of one share of the Company's Class A common stock, \$0.0001 par value, and one-third of one redeemable warrant (each, a "Warrant" and, collectively, the "Warrants"). Each whole Warrant entitles the holder to purchase one share of Class A common stock at a price of \$11.50 per share. No fractional shares will be issued upon separation of the Units and only whole Warrants will trade. Each Warrant will become exercisable on the later of 30 days after the completion of the Company's initial Business Combination or 12 months from the closing of the Initial Public Offering and will expire five years after the completion of the Company's initial Business Combination or earlier upon redemption or liquidation. Once the Warrants become exercisable, the Company may redeem the outstanding Warrants in whole and not in part at a price of \$0.01 per Warrant upon a minimum of 30 days' prior written notice of redemption, if and only if the last sale price of the Company's Class A common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sent the notice of redemption to the Warrant holders.

The Company granted the underwriters a 45-day option to purchase up to 3,750,000 additional Units to cover any over-allotments at the initial public offering price less the underwriting discounts and commissions. The Units that were issued in connection with the over-allotment option are identical to the Units issued in the Initial Public Offering. On January 12, 2018, the Company was advised by the underwriters' that it had elected to exercise a portion of the over-allotment option for 2,500,000 additional Units for additional gross proceeds of \$25 million. The partial exercise resulted in a forfeiture of 312,500 shares of Class B common stock during the year ended December 31, 2018.

The Company paid an underwriting discount of 2.0% of the per Unit offering price to the underwriters at the closing of the Initial Public Offering (or \$5.5 million), with an additional fee (the "Deferred Discount") of 3.5% of the gross offering proceeds (or \$9.625 million) payable upon the Company's completion of an initial Business Combination. The Deferred Discount will become payable to the underwriters from the amounts held in the Trust Account solely in the event the Company completes its initial Business Combination.

Note 4-Related Party Transactions

Founder Shares

On October 16, 2017, the Sponsor purchased 7,187,500 shares of Class B common stock (the "Founder Shares") for an aggregate price of \$25,000. As used herein, unless the context otherwise requires, Founder Shares shall be deemed to include the shares of Class A common stock issuable upon conversion thereof. The Founder Shares are identical to the Class A common stock included in the Units sold in the Initial Public Offering except that the Founder Shares automatically convert into shares of Class A common stock at the time of the Company's initial Business Combination and are subject to certain transfer restrictions, as described in more detail below. Holders of Founder Shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The Sponsor agreed to forfeit up to 937,500 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters so that the Founder Shares will represent 20% of the Company's issued and outstanding shares after the Initial Public Offering (see Note 5). In December 2017, the Sponsor transferred 25,000 Founder Shares to each of the Company's then independent directors, at the original per share purchase price. Also, in January 2018, another 25,000 Founder Shares were transferred to one of the Company's independent directors. The 100,000 Founder Shares held by the Company's independent directors was not subject to forfeiture in the event the underwriters' over-allotment option was not exercised. On January 12, 2018, the Company was advised by the underwriters' that it had elected to exercise a portion of the over-allotment option for 2,500,000 additional Units for additional gross proceeds of \$25 million. The partial exercise resulted in a forfeiture of 312,500 shares of Class B common stock during the year ended December 31, 2018.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

The Company's initial stockholders have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination or (B) subsequent to the initial Business Combination, (x) if the last sale price of the Company's Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which the Company completes a liquidation, merger, stock exchange or other similar transaction that results in all of the Company's stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Private Placement

Simultaneously with the closing of the Initial Public Offering on January 12, 2018, the Sponsor paid the Company \$7.5 million for 5,000,000 Private Placement Warrants at a price of \$1.50 per whole warrant. Each whole Private Placement Warrant is exercisable for one whole share of the Company's Class A common stock at a price of \$11.50 per share. A portion of the purchase price of the Private Placement Warrants has been added to the proceeds from the Initial Public Offering held in the Trust Account. If the initial Business Combination is not completed within the Combination Period, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and the Company's officers and directors have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans, if any, are entitled to registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A common stock) pursuant to a registration rights agreement signed on January 12, 2018. These holders are entitled to certain demand and "piggyback" registration rights. However, the registration rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period for the securities to be registered. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Related Party Loans

The Company's Sponsor had loaned the Company an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering pursuant to a promissory note (the "Note"). This loan was non-interest bearing and payable on the earlier of March 31, 2018 or upon the completion of the Initial Public Offering. In February 2018, the Company repaid this amount in full.

Due to Related Party

An affiliate of the Company paid administrative expenses on behalf of the Company. An aggregate of approximately \$97,000 and \$96,000, as reflected in the accompanying condensed balance sheets are outstanding as of March 31, 2019 and December 31, 2018, respectively. These amounts are due on demand and are non-interest bearing.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

Note 5-Stockholders' Equity

Common Stock

The authorized common stock of the Company includes up to 100,000,000 shares of Class A common stock and 10,000,000 shares of Class B common stock. If the Company enters into an initial Business Combination, it may (depending on the terms of such an initial Business Combination) be required to increase the number of shares of Class A common stock which the Company is authorized to issue at the same time as the Company's stockholders vote on the initial Business Combination to the extent the Company seeks stockholder approval in connection with the initial Business Combination. Holders of the Company's common stock are entitled to one vote for each share of common stock.

On October 16, 2017, the Sponsor purchased 7,187,500 shares of Class B common stock for \$25,000. The Sponsor had agreed to forfeit up to 937,500 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters so that the Founder Shares will represent 20% of the Company's issued and outstanding shares after the Initial Public Offering. On January 12, 2018, the Company was advised by the underwriters' that it had elected to exercise a portion of the over-allotment option for 2,500,000 additional Units for additional gross proceeds of \$25 million. The partial exercise resulted in the forfeiture of 312,500 shares of Class B common stock during the year ended December 31, 2018. As of March 31, 2019 and December 31, 2018, there were 6,875,000 shares of Class B common stock issued and outstanding and 27,500,000 shares of Class A common stock outstanding (26,558,362 and 26,452,491 of which are classified outside of equity as redeemable common stock, respectively).

Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At March 31, 2019 and December 31, 2018, there were no shares of preferred stock issued or outstanding.

Warrants

The public warrants may only be exercised for a whole number of shares. No fractional public warrants will be issued upon separation of the units and only whole public warrants will trade. The public warrants will become exercisable on the later of (a) 30 days after the completion of a business combination or (b) 12 months from the closing of the initial public offering; provided in each case that the Company has an effective registration statement under the Securities Act covering the Class A common stock issuable upon exercise of the public warrants and a current prospectus relating to them is available (or the Company permits holders to exercise their public warrants on a cashless basis and such cashless exercise is exempt from registration under the Securities Act). The Company has agreed that as soon as practicable, but in no event later than 15 business days, after the closing of a business combination, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the Class A common stock issuable upon exercise of the public warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the public warrants in accordance with the provisions of the warrant agreement. If a registration statement covering the Class A common stock issuable upon exercise of the warrants is not effective by the sixtieth (60th) day after the closing of the initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company will have failed to maintain an effective registration statement, exercise warrants on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act or another exemption. The public warrants will expire five years after the completion of a business combination or earlier upon redemption or liquidation.

The private placement warrants are identical to the public warrants underlying the units sold in the initial public offering, except that the private placement warrants and the Class A common stock issuable upon exercise of the private placement warrants will not be transferable, assignable or salable until 30 days after the completion of a business combination, subject to certain limited exceptions. Additionally, the private placement warrants will be non-redeemable so long as they are held by the initial purchasers or such purchasers' permitted transferees. If the private placement warrants are held by someone other than the initial shareholders or their permitted transferees, the private placement warrants will be redeemable by the Company and exercisable by such holders on the same basis as the public warrants.

NEBULA ACQUISITION CORPORATION
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)

The Company may call the public warrants for redemption (except with respect to the private placement warrants):

- in whole and not in part
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption; and
- if, and only if, the last reported closing price of the common stock equals or exceeds \$18.00 per share for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If the Company calls the public warrants for redemption, management will have the option to require all holders that wish to exercise the public warrants to do so on a "cashless basis," as described in the warrant agreement.

The exercise price and number of Class A common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a share dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of Class A common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants shares. If the Company is unable to complete a business combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

Note 6-Fair Value Measurements

The following table presents information about the Company's assets that are measured on a recurring basis as of March 31, 2019 and December 31, 2018 and indicates the fair value hierarchy of the valuation techniques that the Company utilized to determine such fair value.

Description	March 31, 2019	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investment held in Trust Account	\$ 279,643,761		-	-
Description	December 31, 2018	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Other Unobservable Inputs (Level 3)
Investment held in Trust Account	\$ 278,323,607		-	-

At March 31, 2019 and December 31, 2018, the investment held in the Trust Account were held in marketable securities.

Note 7-Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the financial statements were available to be issued.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

References to the “Company,” “our,” “us” or “we” refer to Nebula Acquisition Corporation. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the unaudited condensed financial statements and the notes thereto contained elsewhere in this report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission (“SEC”) filings.

Overview

We are a blank check company incorporated as a Delaware corporation on October 2, 2017 and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We intend to complete our initial business combination using cash from the proceeds of our initial public offering and the private placements of the private placement warrants, our capital stock, debt or a combination of cash, stock and debt. Our sponsor is Nebula Holdings, LLC, a Delaware limited liability company (the “Sponsor”).

We consummated our initial public offering (“Initial Public Offering”) on January 12, 2018.

Results of Operations

Our entire activity since inception was in preparation for our initial public offering, which was consummated on January 12, 2018, and since such offering, our activity has been limited to the search for a prospective initial Business Combination, and we will not be generating any operating revenues until the closing and completion of our initial business combination. We have neither engaged in any operations nor generated any revenues to date. We will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents. We expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses.

For the three months ended March 31, 2019, we had net income of approximately \$1.1 million, which consisted of approximately \$1.5 million in investment income, offset by approximately \$102,000 in general and administrative costs, approximately \$50,000 in franchise tax expense, and approximately \$309,000 in income tax expense.

For the three months ended March 31, 2018, we had net income of approximately \$211,000, which consisted of approximately \$444,000 in investment income, offset by approximately \$91,000 in general and administrative costs, \$49,000 in franchise tax expense, and approximately \$93,000 in income tax expense.

Going Concern Consideration and Capital Resources

In connection with our assessment of going concern considerations in accordance with Financial Accounting Standard Board’s Accounting Standards Updated (“ASU”) 2014-15, “Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern”, management has determined that the mandatory liquidation and subsequent dissolution raises substantial doubt about our ability to continue as a going concern. No adjustments have been made to the carrying amounts of assets or liabilities should we be required to liquidate after January 12, 2020.

As of March 31, 2019, we had approximately \$953,000 in our operating bank account, approximately \$4.6 million of investment income available to pay for franchise and income taxes (less up to \$500,000 of interest released to us for working capital purposes and \$100,000 of interest to pay dissolution expenses), and a working capital of approximately \$565,000.

Through March 31, 2019, our liquidity needs have been satisfied through receipt of a \$25,000 capital contribution from the Sponsor in exchange for the issuance of the Founder Shares to the Sponsor, approximately \$291,000 in loans from the Sponsor, the net proceeds from the consummation of the Private Placement not held in Trust, and proceeds from investment income released from Trust Account to pay for taxes. We repaid the loans from the Sponsor in full in February 2018.

Related Party Transactions

Founder Shares

On October 16, 2017, the Sponsor purchased 7,187,500 shares of Class B common stock (the “Founder Shares”) for an aggregate price of \$25,000. As used herein, unless the context otherwise requires, Founder Shares shall be deemed to include the shares of Class A common stock issuable upon conversion thereof. The Founder Shares are identical to the Class A common stock included in the Units sold in the Initial Public Offering except that the Founder Shares automatically convert into shares of Class A common stock at the time of our initial Business Combination and are subject to certain transfer restrictions, as described in more detail below. Holders of Founder Shares may also elect to convert their shares of Class B common stock into an equal number of shares of Class A common stock, subject to adjustment as provided above, at any time. The Sponsor agreed to forfeit up to 937,500 Founder Shares to the extent that the over-allotment option was not exercised in full by the underwriters so that the Founder Shares will represent 20% of our issued and outstanding shares after the Initial Public Offering. In December 2017, the Sponsor transferred 25,000 Founder Shares to each of our then independent directors, at the original per share purchase price. Also, in January 2018, another 25,000 Founder Shares were transferred to one of our independent directors. On January 12, 2018, we were advised by the underwriters’ that it had elected to exercise a portion of the over-allotment option for 2,500,000 additional Units for additional gross proceeds of \$25 million. The partial exercise resulted in the forfeiture of 312,500 shares of Class B common stock held by the Sponsor during the year ended December 31, 2018.

Our initial stockholders have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Founder Shares until the earlier to occur of: (A) one year after the completion of the initial Business Combination or (B) subsequent to the initial Business Combination, (x) if the last sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after the initial Business Combination, or (y) the date on which we complete a liquidation, merger, stock exchange or other similar transaction that results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Private Placement

Simultaneously with the closing of the Initial Public Offering on January 12, 2018, the Sponsor paid us \$7.5 million for 5,000,000 Private Placement Warrants at a price of \$1.50 per whole warrant. Each whole Private Placement Warrant is exercisable for one whole share of our Class A common stock at a price of \$11.50 per share. A portion of the purchase price of the Private Placement Warrants has been added to the proceeds from the Initial Public Offering held in the Trust Account. If the initial Business Combination is not completed within the Combination Period, the proceeds from the sale of the Private Placement Warrants held in the Trust Account will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. The Private Placement Warrants will be non-redeemable and exercisable on a cashless basis so long as they are held by the Sponsor or its permitted transferees.

The Sponsor and our officers and directors have agreed, subject to limited exceptions, not to transfer, assign or sell any of their Private Placement Warrants until 30 days after the completion of the initial Business Combination.

Registration Rights

The holders of Founder Shares, Private Placement Warrants and Warrants that may be issued upon conversion of working capital loans, if any, are entitled to registration rights (in the case of the Founder Shares, only after conversion of such shares to shares of Class A common stock) pursuant to a registration rights agreement signed on January 12, 2018. These holders are entitled to certain demand and “piggyback” registration rights. However, the registration rights agreement provides that we will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period for the securities to be registered. We will bear the expenses incurred in connection with the filing of any such registration statements.

Related Party Loans

Our Sponsor had loaned us an aggregate of up to \$300,000 to cover expenses related to the Initial Public Offering pursuant to a promissory note (the “Note”). This loan was non-interest bearing and payable on the earlier of March 31, 2018 or the completion of the Initial Public Offering. We repaid this amount in full in February 2018.

In order to fund working capital deficiencies or finance transaction costs in connection with an initial Business Combination, our Sponsor or an affiliate of our Sponsor or certain of our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial Business Combination, we would repay such loaned amounts. In the event that our initial Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants, at a price of \$1.50 per warrant at the option of the lender. The warrants would be identical to the private placement warrants, including as to exercise price, exercisability and exercise period. The terms of such loans by our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. We do not expect to seek loans from parties other than our Sponsor or an affiliate of our Sponsor as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our Trust Account.

Due to Related Party

An affiliate of our company paid administrative expenses on behalf of the Company. An aggregate of approximately \$97,000 and \$96,000, as reflected in the accompanying balance sheets are outstanding as of March 31, 2019 and December 31, 2018, respectively. These amounts are due on demand and are non-interest bearing.

Critical Accounting Policies and Estimates

This management's discussion and analysis of our financial condition and results of operations is based on our financial statements, which have been prepared in accordance with U.S. GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities in our financial statements. On an ongoing basis, we evaluate our estimates and judgments, including those related to fair value of financial instrument and accrued expenses. We base our estimates on historical experience, known trends and events and various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe there have been no significant changes in our critical accounting policies as discussed in our 2018 Form 10-K filed with the SEC on February 15, 2019.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of March 31, 2019, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations other than obligations disclosed herein. No unaudited quarterly operating data is included in this prospectus, as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company", we choose to rely on such exemptions we may not be required to, among other things, (i) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404, (ii) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (iii) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (iv) disclose certain executive compensation related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our initial public offering or until we are no longer an "emerging growth company," whichever is earlier.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The net proceeds of our initial public offering and the sale of the private placement warrants held in the trust account are invested in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act which invest only in direct U.S. government treasury obligations. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended March 31, 2019, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our chief executive officer and chief financial officer have concluded that during the period covered by this report, our disclosure controls and procedures were effective.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the fiscal quarter ended March 31, 2019 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

If the net proceeds of our initial public offering and simultaneous private placement not being held in the trust account and loans from Sponsor are insufficient, it could limit the amount available to complete our initial business combination and we may be unable to continue as a going concern.

As of March 31, 2019, we had approximately \$953,000 in operating bank account, approximately \$4.6 million of investment income available in the Trust Account to pay for franchise and income taxes (less up to \$500,000 of investment income released to us for working capital purposes and \$100,000 of investment income to pay dissolution expenses), and working capital of approximately \$565,000. Funds in the Trust Account are not available for paying these costs absent an initial business combination. There can be no assurances that we will complete a business combination.

If we are required to seek additional capital, we would need to borrow funds from our sponsor, our management team or other third parties to operate or may be forced to liquidate. To date, we have not received any advances from our sponsor or directors to finance transaction costs in connection with a business combination. Neither our sponsor, members of our management team nor any of their affiliates are under any obligation to advance funds to us in such circumstances. Accordingly, we may not be able to obtain additional financing. Any such loans and advances would be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. If we are unable to raise additional capital, we may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, suspending the pursuit of a potential transaction. We cannot provide any assurance that new financing will be available to us on commercially acceptable terms, if at all. These conditions raise substantial doubt about our ability to continue as a going concern. The financial statements included herein do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should we be unable to continue as a going concern. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. Consequently, our public shareholders may only receive approximately \$10.00 per share or less upon redemption of our public shares.

Other than the above risk factor, as of the date of this Quarterly Report on Form 10-Q, there have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for fiscal year 2018, which was filed with the SEC on February 15, 2019. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. We may disclose changes to such risk factors or disclose additional risk factors from time to time in our future filings with the SEC.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Use of Proceeds from the Initial Public Offering

Following the closing of the Initial Public Offering (including exercise of the underwriters' over-allotment option) and concurrent private placement, approximately \$275.0 million (or \$10.00 per unit sold in the Initial Public Offering) was placed in the Company's trust account. As of March 31, 2019, approximately \$953,000 was held outside the trust account and will be used to fund the Company's operating expenses. The proceeds held in the trust account may be invested by the trustee only in U.S. government treasury bills with a maturity of 180 days or less or in money market funds investing solely in U.S. government treasury obligations and meeting certain conditions under Rule 2a-7 under the Investment Company Act.

The Company paid approximately \$6.1 million of offering cost including the repayment of the note from its Sponsor and the remaining proceeds of approximately \$1.6 million held outside the Trust Account upon closing of the Initial Public Offering have been used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosure

Not applicable.

Item 5. Other Information

None.

(Principal Financial and Accounting Officer)

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

Pursuant to Rule 13a-14(a) and Rule 15d-14(a) under the
Securities Exchange Act of 1934
(Section 302 of the Sarbanes-Oxley Act of 2002)

I, Adam H Clammer, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Nebula Acquisition Corporation;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:

a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) [omitted pursuant to the transition period exemption for newly public companies.]

c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
