### Forward-Looking Statements

This press release includes certain statements that are not historical facts but are forward-looking statements for purposes of the safe harbor provisions under the United States Private Securities Litigation Reform Act of 1995, including statements related to market trends, consumer behavior and demand for automotive loans, as well as future financial performance under the heading "Fourth Quarter 2023 Outlook" above. Forward-looking statements generally are accompanied by words such as "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "should," "would," "plan," "predict," "potential," "seem," "seek," "future," "outlook," and similar expressions that predict or indicate future events or trends or that are not statements of historical matters. These statements are based on various assumptions and on the current expectations of the Company's management and are not predictions of actual performance. These forward-looking statements are provided for illustrative purposes only and are not intended to serve as, and must not be relied on by any investor as, a guarantee, an assurance, a prediction or a definitive statement of fact or probability. Actual events and circumstances are difficult or impossible to predict and will differ from assumptions. Many actual events and circumstances are beyond the Company's control. These forward-looking statements are subject to a number of risks and uncertainties, including general economic, market, political and business conditions; applicable taxes, inflation, supply chain disruptions including global hostilities and responses thereto, interest rates and the regulatory environment; the outcome of judicial proceedings to which Open Lending may become a party; failure to realize the anticipated benefits of the business combination with Nebula Acquisition Corporation; and other risks discussed in our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2022. If the risks materialize or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. There may be additional risks that the Company presently does not know or that they currently believe are immaterial that could also cause actual results to differ from those contained in the forward-looking statements. In addition, forward-looking statements reflect the Company's expectations, plans or forecasts of future events and views as of the date of this press release. The Company anticipates that subsequent events and developments will cause their assessments to change. However, while the Company may elect to update these forward-looking statements at some point in the future, the Company specifically disclaims any obligation to do so. These forward-looking statements should not be relied upon as representing the Company's assessments as of any date subsequent to the date of this press release. Accordingly, undue reliance should not be placed upon the forward-looking statements.

### Non-GAAP Financial Measures

The non-GAAP financial measures included in this press release are financial information that has not been prepared in accordance with GAAP. The Company uses Adjusted EBITDA, Adjusted EBITDA margin and Adjusted operating cash flows internally in analyzing our financial results and believes these measures are useful to investors, as a supplement to GAAP measures, in evaluating our ongoing operational performance. The Company believes that the use of non-GAAP financial measures provides an additional tool for investors to use in evaluating ongoing operating results and trends and in comparing our financial results with other companies in our industry, many of which present similar non-GAAP financial measures to investors.

The Company believes these measures provide useful information to investors and others in understanding and evaluating its operating results in the same manner as its management and board of directors. In addition, these measures provide useful measures for period-to-period comparisons of our business, as they remove the effect of certain non-cash items and certain non-recurring variable charges. Adjusted EBITDA is defined as GAAP net income excluding interest expense, income taxes, depreciation and amortization expense of property and equipment, and share-based compensation expense. Adjusted EBITDA margin is defined as Adjusted EBITDA expressed as a percentage of total revenue. Adjusted operating cash flows is defined as Adjusted EBITDA, minus CAPEX, +/- change in contract assets.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Investors are encouraged to review the reconciliation of non-GAAP financial measures to their most directly comparable GAAP financial measure provided in the financial statement tables included below in this press release.
